Course Description:

This course expands upon the foundations developed in the Orton-Gillingham Associate Level Course. Teachers will demonstrate the knowledge and skill to teach basic phonology as well as morphology to students of all ages. Case management with various professionals, psychological testing, and diagnostic/prescriptive lessons are a focus of this course. Course participants will learn about the needs of dyslexic learners including specific strategies appropriate for older learners. Trainees will arrange for one of the Instructors to observe a lesson during the course. The course project is to write a student profile. Participation in this course requires a Bachelor's degree, successful completion of the Associate Level Training, and documentation from at least four observations by a Fellow. Please note that the Certified course is offered in 2 parts identified as Certified Course 1 and Certified Course 2. Courses 1 and 2 are stand-alone sections. Each provides 50 hours of the 100 hour curriculum. Both are required for Certified candidates, and Course 1 is suggested (but not required) before Course 2. The course objectives conform to the Academy of Orton-Gillingham Practitioners and Educator's guidelines.

Note: If interested in pursuing Certified Level membership in the Academy, the two-year practicum will incur a separate fee. The cost of observations will be determined by the Fellow when they are scheduled.
