

STEM Teacher

to apply, send letter & resume to dblanch@camperdown.org

School Summary

Camperdown Academy is a non-profit organization providing excellence in the education of dyslexic children with a day school for grades one through eight, and training and outreach services provided to teachers and professionals across the region. Specific and specialized teaching approaches are shared through outreach efforts and administered in small group settings with an emphasis on individualized instruction.

Position Summary

This position is for a full-time STEM teacher. The ideal candidate has a growth mindset, a passion for innovation, and the ability to guide students in a creative, sometimes chaotic, learning environment. The role requires someone comfortable with troubleshooting, willing to try new things, and able to collaborate effectively with colleagues.

Key Responsibilities

- Foster a hands-on learning environment where students can explore STEM concepts
- Maintain classroom conduct expectations while encouraging creativity and problem-solving
- Collaborate with fellow teachers to align projects with school goals and student learning profiles
- Support the integration of new technologies and learning tools into classroom instruction
- Participate actively in school culture through duties like lunch coverage, recess, and other responsibilities

Minimum Position Requirements

- Bachelor's Degree and relevant teaching experience
- Familiarity with block-based coding and 3D modeling tools like Tinkercad
- Toyota Kata knowledge is a plus
- Proficient in 3D printing technology
- Reliable transportation and a willingness to attend evening events as needed

Camperdown Academy recruits, hires, and promotes without regard to race, religion, gender, age, disability, marital status, political affiliation, or sexual orientation.
